JOIN UTOPIA!

The Federation and Empire maintain their grip on the galaxy through engineered conflicts and deliberate economic stagnation that treat independent pilots as expendable assets. By directing your efforts toward Utopia and the SimGuru Pranav Antal, you ensure that your flight hours actively construct a unified, highly optimized society rather than merely funding the next territorial dispute of a corrupt politician.

Pledge for Pranav Antal!

Want to join a power with a history of advanced nanomedicine research and the technological capability to fully realize the potential of the Radicoida in the Enclave? Ready to fight anybody who disagrees? Utopia might be for you. We offer a friendly, player-driven community with minimal hierarchy, and welcome new and experienced Antal pledges.

Interested in exobiology, for credits or recreation? Utopia offers a 30% bonus on all rewards once fully ranked, which we can help you do quickly and easily. If you like exploration and are saving for a big purchase, give us a look.

Not an Antal pledge? No problem! Stop by anyway. Whether you're after an embassy channel, help with powerplay basics, or just some friendly banter in the Palace, all are welcome (except for bots and spammers).
